Sample Gift Card

Wasabi Sushi Bar
Awaiting copy....
Amount: \$30.00
Issued To: First Name Last Name
Purchased: Wed, Mar 02 2011 2:12 PM
Card ID: XXXXXX
Order ID: 17232XXXXX
Vendor: Wasabi Sushi Bar
1228 Washington Ave.
St. Louis, MO 63103

Value of coupons, not the amount paid.

Activated 24 hours after purchase and valid until September 14, 2011. Coupon not valid until Monday, March 14. Only valid at the Washington Ave. location. Not valid with other promotions, including Happy Hour. Valid dine-in only; no carry-out. Tax and gratuity not included. No cash back for unused portion. No cash value. Limit one coupon per person; can purchase up to (1) additional as a gift. All sales final. No refunds. For additional restrictions, see below for The Fine Print.

The restrictions listed for the deal are also printed on the coupon.

The Order ID numbers are unique to the order, not to each coupon.

The Card ID is a combination of six letters and numbers that is unique to each coupon. This is the unique code to use when managing redemptions.

Mobile Redemption Page

To redeem gift cards, download a "QR code scanner" app on your smartphone. When presented with a printed gift card "scan" the barcode with your QR scanner app and the app will automatically direct you to a website that will tell you if the gift card has been redeemed or not. Or you can go to the redemption page on your phone and type in the card number; good option if your phone does not have a camera or apps.

Online Redemption Page

Visit "<http://sbindeals.com/>" link sent by inDeals. That page will prompt you to enter the Order ID of the gift card. Once you submit the Order ID our system will tell you if the gift card is valid or if it's been redeemed in the past.

Pencil & Paper

Print the excel file you receive from the automated email you get from us after your Deal is complete. You can use this excel file to check off the names and Order ID numbers of your customers that bring in their gift cards.

Consumer Mobile Redemption

Consumers can also present a mobile version of the gift card on their smartphones. When they present the mobile gift card hit the button labeled "Redeem" to process that they have used their gift card.

Please Note: If you do not have a QR Code on your gift card, ignore the "Mobile Redemption Page" option.
